

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

ORDER NO. 91 - 110

RESCINDING WASTE DISCHARGE REQUIREMENTS FOR:

NAPA VALLEY MOBILE HOME PARK,
NAPA, NAPA COUNTY

The California Regional Water Quality Control Board,
San Francisco Bay Region (hereinafter Board), finds that:

1. The California Water Code Section 13263 (e) and the State Board's regulations (California Code of Regulations, Title 23, Section 2232.2) require the Board to review waste discharge requirements periodically to determine if the requirements are adequate or necessary.
2. On June 17, 1987 the Board adopted Order No. 87-067 prescribing waste discharge requirements for the Napa Valley Mobile Home Park (hereinafter Discharger) for the discharge of domestic wastewater into a series of three on-site stabilization ponds, and a percolation pond used for final disposal of stabilization pond effluent by percolation and evaporation.
3. On August 4, 1990 the Discharger completed connection to the Napa Sanitation District sanitary sewer system and discontinued use of the on-site wastewater ponds.
4. During the latter part of 1990 the Discharger's on-site wastewater ponds were decommissioned under the review and oversight of the Napa County Department of Environmental Health. Remaining wastewater in the ponds was disposed to the Napa Sanitation District sanitary sewer, residual sludge in the ponds was analyzed and determined to be nonhazardous, and the sludge was air-dried and then hauled away for disposal at the Redwood Landfill in Novato, California.
5. The Napa County Department of Environmental Health submitted a letter dated May 20, 1991 notifying the Board that all requirements for the decommissioning of the Discharger's wastewater ponds have been satisfactorily completed.
6. The discharges governed by Order No. 87-067 have been terminated and the Discharger's wastewater pond system has been decommissioned and no longer exists. Therefore, the waste discharge requirements prescribed in Order No. 87-067 are no longer necessary.

7. This Order will rescind the waste discharge requirements prescribed by Order No. 87-067.
8. Adoption of this Order is exempt from the provisions of Chapter 3 (commencing with Section 21100) of Division 13 of the Public Resources Code (California Environmental Quality Act) pursuant to Section 13389 of the California Water Code.
9. The Discharger and interested agencies and persons have been notified of the Board's intent to rescind these requirements, and have been provided an opportunity for a public hearing and the opportunity to submit their written views and recommendations.
10. The Board, in a public meeting, heard and considered all comments pertaining to the rescission of the identified waste discharge requirements.

IT IS HEREBY ORDERED THAT:

This Board's Order No. 87-067 is rescinded.

I, Steven R. Ritchie, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region on July 17, 1991.

STEVEN R. RITCHIE
Executive Officer
